

VANSHIKA RAJPUT

Full Stack Developer

📞 7251004042 ✉️ vanshikavce19@gmail.com 🔗 LinkedIn 📍 Noida, Uttar Pradesh

SUMMARY

Full Stack Developer with **2 years of experience** in building scalable, secure, and high-performance web applications using **Node.js**, **Express.js**, **React.js** and **MongoDB**. Proficient in backend architecture, **third party integrations**, database management with **MongoDB**. Skilled in developing **RESTful APIs**, **frontend integrations**, **third-party services**, and responsive user interfaces with a strong focus on performance, scalability, and user experience.

EXPERIENCE

Backend Developer

RNF Technologies

📅 09/2025 - Present

- Developed scalable backend systems and **RESTful APIs** using Nodejs, Express.js and MongoDB for CRM and digital marketing platform.
- Built and managed APIs **attendees, speakers, sessions, registrations, questionnaires, and conference verticals for The2Conf**.
- Integrated **Google Analytics and SEOptimer** to enable SEO analysis, traffic tracking, and performance reporting.
- Managed and integrated **MongoDB** databases for consistent data with high performance.

Backend Developer

Devlupers

📅 04/2024 - 08/2025

- Developed and maintained **200+ RESTful APIs** using Node.js and Express.js to support scalable web applications.
- Refactored and optimized **100+ existing APIs** to improve performance, security, and maintainability.
- Integrated OTP-based user verification through **third-party SMS Gateway APIs** for secure login and signup process.
- Implemented **real-time balance deduction functionality**, enabling dynamic wallet updates.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Kunwar Satya Vira College of Engineering & Management

📅 08/2019 - 06/2023 📍 Bijnor, Uttar Pradesh

SKILLS

Programming Languages: JavaScript, TypeScript

Backend: Node.js, Express.js, REST APIs, JWT Auth

Database & Caching: MongoDB, Mongoose, Redis

Frontend: React.js, HTML, CSS, Tailwind

Tools: Git, Postman, JIRA, VS Code

PROJECTS

The Scale Agency 🔗

📅 11/2025 – Present

- Worked on developing and improving a digital marketing solution that included SEO, analytics and growth solutions.
- Integrated **Google Analytics** to monitor website visitors, interactions, and conversion tracking.
- Integrated **SEOptimer** tool to automatically audit the website's SEO and optimize it.
- Build and integrated an AI-powered **chatbot** to improve customer engagement, support, and lead generation.

The 2Conf 🔗

📅 09/2025 – 02/2026

- Developed and maintained RESTful APIs for managing conference verticals, registrations, questionnaires, and attendee data.
- Implemented secure **Google Sign-in authentication** and user management features.
- Implemented **role-based access control (RBAC)** and permission management for secure user operations and admin functionalities.
- Built scalable backend architecture using Node.js, Express.js, and MongoDB for conference operations management.

AstroGanesh 🔗

📅 04/2024 – 08/2025

- Engineered backend infrastructure for an astrology platform using Node.js and Express.js, implementing **CRUD operations** to support core platform functionalities.
- Implemented **multi-device login functionality**, **OTP based authentication** with **session tracking**, allowing users to manage and view active sessions securely.
- Implemented **real-time wallet balance deduction** with dynamic balance updates and instant transaction synchronization.
- Designed and maintained database solutions with **MongoDB**, ensuring efficient data storage and retrieval to support API functionality.
